1 pc	RVSPAB	1/4-20 x 1.75 SHCS Pivot Arm Bolt	1 pc	RVSPCW	1/4" Washer for Pivot Clamp

To Order Entire Kits:

RVSKL100 - Vise Stop Kit - **LEFT HAND MOUNT**
for standard 6" vise, includes all items above except
RVSRB, which can be ordered separately

RVSKR100 - Vise Stop Kit - **RIGHT HAND MOUNT**
for Standard 6" vise includes all items above except
RVSLB, which can be ordered separately

VersaStop - Set up and Use:

Your RedLine Tools VersaStop is shipped ready to attach to your vise.

For correct installation, rest the mounting bracket square on vise ways and fasten it with the supplied 1/2-13 socket head cap screw. Insert the desired stop rod into the stop rod clamp, position to desired length and tighten the clamp to **30 in/lbs.** Warning never tighten over **40 in/lbs.**

Position the stop by loosening the pivot clamp screw. Once in position, tighten pivot clamp screw. Do not exceed **100 in/lbs.**

Your VersaStop is supplied with 1/4" diameter stop rods. Your VersaStop will accept stop rods from 1/16" to 3/8" in diameter. **Clearance issues may arise when using stop rods smaller than 1/4" diameter.** A shorter or longer bolt may need to be used when using other stop rods.
